

Tohoku internship on disaster prevention

2026/09/01~09/02

The participants
visited Fukushima
and Iwate
Prefectures in
Tohoku district to
learn the reality of
the damage caused
by the Great East
Japan Earthquake
2011.

They visited disaster
memorial museum and
learned how devastating
the tsunami damage was.
Through storyteller
accounts and tours of the
disaster-affected areas,
they learned about what it
was actually like to
evacuate and the realities
of life after a disaster.
