

## The SUSTEP Short-term Program for Students from the Hanoi School of Business, Vietnam National University

From October 20th to 24th, 2014, students from the Hanoi School of Business, Vietnam National University visited the University of Tsukuba and attended a short-term course on Environmental Management Systems in the beverage industry.

The purpose of the course was to help participants' learn updated theories and practices in corporate governance, particularly in the field of sustainable environmental management within the beverage industry.
